AHS Newscast

By Jane Holt

January 25, 1955

Dear June,

Exams are all over now and what a relief! I hope that we all came through with flying colors. I guess you start yours next week, don't you.

Other than studying school activities have been light this week. No clubs as usual, due to exams. But our basketball schedule has gone not disrupted. Friday night the AHS teams played New London Academy. I'm happy to report two more victories were chalked up for us. Edna Gregory and Jerry George were our two top scorers that night. Tuesday night the teams motored to Buckingham, where we played Buckingham Central High. The boys played a very exciting game, marking up their seventh victory, with a score of 41-38. Jerry George, 'Boots' Carter, Garland Doss, Teddy Mitchell, John Rothgeb and Bradley Babcock showed us some fine teamwork and good play. The AHS girls, however, were defeated by a score of 54-44. It was a tough game, but fun. Yours truly was high scorer that night, with 25 points. Friday night we meet Brookville High here. This game is of importance to us as it is a league game. Next week we play Randolph-Hen'y and Bedford. And so much for basketball this week.

The Juniors have been sporting new class rings around lately, and they look mightily good. Wasn't it fun when we got ours though?

Our gym has practically neared completion now. The construction men left here last week. It still seems hard to believe we have a gym. But nothing could we have enjoyed more. It's just grand.

Next week, after we get back into our regular schedule, there will be more AHS news to relate to you. So until then, here's wishing you the best on your exams.

'Til then,

Jane.

Carver-Price High School

Hello Readers! The semester Exams ended on Tuesday after having been postponed because of bad weather last week. Students seemed to have "made" it, however. More time was spent in reviewing and grades should be better.

The Benefit Game for the March of Dimes on Monday night between the Faculty Women and the Girls Team netted $19.90. The Teachers won the game by a score of 16-11. It was very interesting and created much wholesome fun. The faculty players were:

Forwards: Miss Hezetine Robinson, Miss Nettie Williams and Miss Mable Braxton. Guards: Miss Naomi Early, Mrs. Gaynelle Lee, Miss Eddy Betts and Miss Elaine Lawhorne. Following this game, the Varsity won over the Alumni Boys by a score of 44-13. This also was interesting.

Principal R. E. Patrick continues to improve in the Lynchburg General Hospital, we are happy to report. We hope he will soon return.

P.-T. A. meeting was held in the Library Monday evening at 7:00 o'clock. Special programs were discussed in an extended attempt to raise the needed funds for the cafeteria equipment debt. An interested group of parents attended.

Until next week, our thought: This is a good one to guide us through the last half of the year. "There is nothing more to be esteemed than a manly firmness and decision of character. I like a person who knows his own mind and sticks to it; who sees at once what is to be done in given circumstances and does it."

HEART FUND GOAL

A Heart Fund goal for Virginia of $200,000 was announced today by Mr. John M. Camp, of Franklin State Campaign chairman. The Heart Fund, to be conducted during the month of February by Virginia Heart Association and its affiliated chapters and committees, is for the support of heart research, education and community service in Virginia as well as the nation-wide heart research activities of American Heart Association.

"This goal," Mr. Camp said, "is approximately six cents per capita and represents a very small amount to ask when one considers the tremendous size of the heart problem. In 1953, over 15,000 Virginians lost their lives due to heart and blood vessel diseases. In other words for every two people who died, one died of a heart or circulation disease."

"The Heart Association programs are helping to bring new hope to heart sufferers," Mr. Camp stated. "New surgical methods, new drugs, and better diagnostic techniques, which have come about through heart research are enabling thousands of heart victims to lead normal or near normal activities. Educational programs are bringing to medical workers and the general public new knowledge of the heart diseases.
